3. Place Thank you note inside envelope – **DO NOT SEAL the envelope**
4. Address the Thank You Envelope and stamp it – **DO NOT SEAL THE ENVELOPE**

 - i. If you were mailing ME the card, it would look like this:

Cartersville High School
 Attn: Ms. Shannon Boyer
 320 East Church Street
 Cartersville, GA 30120

Addressing an Envelope:

Content:

1. Greeting. Don't forget to make sure you're using the correct form and spelling of the person's name, as well as anyone else's mentioned in the note.
2. Express your thanks. Begin with the two most important words: **Thank you.**
3. Add specific details. ... **I really enjoyed it when I got to....**
4. Look ahead. ... **I can't wait to get to college and pursue a career in this industry... or, You were very helpful in me making a decision on the career I want to pursue...**
5. Restate your thanks. ...
6. End with your regards. **Sincerely,**

WHY: What reflects on YOU? How you write... (Is it neat?); Poor grammar or spelling; using slang or text message spellings of words, not addressing the person properly (Mr., Mrs., Miss., Ms., Dr.), not using PEN, addressing the envelope incorrectly. **Not paying attention to details can reflect poorly on you.** It is almost as bad as not sending a thank you letter at all.
